

Corporate Profile

The Ethics Institute is an independent public institute producing original thought leadership and offering a range of ethics-related services and products

Vision

Building an ethically responsible society.

What we do

We pursue our vision through thought leadership and an ethics-related offering, including training offerings, advisory services, assessments, audit services, products and supporter opportunities.

We work with the public and private sectors, and with professional associations.

Thought leadership

We generate original research that focuses on the capacity of organisations and professionals to deal with the ethics challenges and opportunities they encounter. All findings are made publicly available as a means of creating ethical awareness and stimulating debate on ethical issues. We

- conduct and publish research related to organisational ethics, corruption prevention and professional ethics,
- participate regularly in public debates,
- contribute to policy formulation in respect of organisational ethics,
- present at public events and academic conferences, and
- contribute to academic and popular publications.

Ethics-related offering

We offer a wide array of services and products related to the governance and management of ethics in organisations and professions.
