

Staff Ethics Awareness Programme (SEAP)

Ethics made accessible!

SEAP aims to **make ethics real** for employees who may not necessarily be exposed to regular ethics training programmes from their employers. Tailored for middle management, first-line supervisors, and semi-skilled workers, SEAP offers three engaging video modules. Presented in accessible English and also available in Portuguese, SEAP integrates seamlessly into organisational training sessions or can be pursued independently.

 SEAP video-based programme	Module 1	What is ethics and why is it important?
	Module 2	Ethical challenges in organisations
	Module 3	My role in ethics
<p>Each module consists of six short video clips, totalling 18, presented through dynamic, animated slides with voice-over in English or Portuguese.</p>		

Application

The programme is available for use by the organisation’s trainers and managers in facilitated sessions, aiding employees in gaining a deeper understanding of ethics within the organisation and their role therein. SEAP can be easily integrated with a half-day on-site training workshop facilitated by experienced ethics trainers. Employees opting for a self-study approach can also make use of SEAP.

The SEAP package include:

- Free 90-minute coaching session presented by TEI.
- SEAP Facilitator’s Guide.
- SEAP Participant Workbook.
- Self-assessment questionnaire at the end of each module.
